

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0042] with the following amended paragraph:

[0042] Since the guide funnel 20 of the present invention is cylindrical, with "V" grooves 200 respectively recessed into a flow passage in left and right sides of the guide funnel 20, and an inlet side of an inlet duct 12 the outlet part of the guide funnel 20 is inserted thereto has "V" projections 120 fit to the "V" grooves 100 in the guide funnel 20, when the guide funnel 20 is fitted to the inlet of the inlet duct 12, the "V" projections 120 on the inlet duct 12 are positioned inside of the "V" grooves 200 of the guide funnel 20. As may be clearly seen with reference to FIG. 5, the grooves 200 inwardly project from the guide funnel 20. Similarly, as may be clearly seen in FIG. 5, the projections 120 are inwardly disposed relative to the inlet duct 12.
